

JUNE - 2017

NEWS YOU CAN USE

From the Golf Course...

So June marks about the SEVEN MONTH mark for me working with and for all of you at the Jaycee golf course and is about the FOUR MONTH mark for our new golf course super Brian Martin. So I thought it would be a good time to talk about some of the reoccurring comments and issues that have come up so far so that all of you have a better understanding of where we are.

The biggest question I get asked is a lot of small general questions that come down to "Why can't the golf course have this or do this?" The answer to that is simple – MONEY. The Jaycee golf course operation for whatever reason, has been a money loser every year since 2008. The golf and clubhouse operations have had declining revenue every year since 2012. As you can imagine when there is no money to buy new equipment, update and improve your golf course and its condition, things can snowball and get more difficult.

Trust me when I say, I know the carts paths are in need of repair, the lake needs drained and cleaned to help eliminate the algae layer, The senior tees need to be rebuilt to real tees with water, the sand traps need to be completely re-built, we need to buy more new golf carts to replace all the electric carts, we need new golf course equipment to help better maintain the course, and on and on and on!!!

So we had to build a long term plan to start addressing all of this. Myself, Brian and your golf board are doing the following:

- We reduced the season pass fees if you paid by the discount deadline in an effort to increase season pass holders. This has worked we are up by 135% on season passes.
- We reduced greens & cart fees in an effort to get more play. So far so good as we are up 110% in 2017 so far. KEEP PLAYING PLEASE!!
- We cut the food and beverage menus by almost 50% so as to not carry as much product that would go to waste. We also made changes to higher quality food. You must be enjoying the new food as food sales so far are up as well this season and we are having very little waste which saves money!
- We spent money to buy 24 new GAS golf carts to cut down on repair costs of the oldest carts.
- We spent money to buy some newer equipment to help with the golf course & we are buying a couple dozen algae eating carp for the ponds!
- We are re-working the debt / loan on the clubhouse to save money.
- We are focused on improving TEES & GREENS in 2017. That is where Brian and his crew are spending extra time and money.
- We have developed a plan to start improving fairways this fall with new seed and we are going to be spending money to improve the watering system this summer. The fairways have an annual bluegrass / poanna in them that will die this summer at some point. Unfortunately there is nothing we can do about it except let it die and start over with good grass seed this fall.

With your continued support we can keep making it better!

Thank you for all your help & keep on playing!

EVERY MONDAY

*Kenworth, Kroger & McDonalds
Golf Leagues 3:00pm – 5:00pm*
